PROFILE

Aspiring gameplay programmer passionate about creating engaging and innovative player experiences. Skilled in C++, Blueprint scripting, and Unreal Engine 5, with hands-on experience in collaborative development environments through both professional volunteer work and academic projects.

SKILLS

Programming Languages: C++, C#, Python, HTML, CSS, Unreal Engine Blueprints

Engines & Tools: Unreal Engine 5, GitHub, Diversion, JetBrains Rider, Visual Studio

Technical Skills: Technical design, animation blendspaces & Blueprints, gameplay ability systems

Soft Skills: Leadership, team collaboration, open communication

EXPERIENCE

Volunteer Gameplay Programmer

Star Tempest Studios — Remote | Jun 2025 – Present

- Implement gameplay features using Unreal Engine 5's Blueprint system, built on C++.
- Collaborate with designers and artists to integrate mechanics into ongoing project.

Junior Gameplay Programmer

Oathbound Studios — Remote | May 2025 – Present

- Program core gameplay systems in C++ and Blueprint for Unreal Engine 5 project.
- Assist with debugging, optimization, and implementation of player mechanics.

Gameplay Programmer

Scrapmetal Studios — Purdue University | Aug 2024 – Dec 2024

- Developed a fully functional dialogue system in C++ for Unreal Engine 5 game.
 - Beta version released on Itch.io, contributing to early user feedback cycle.
-

EDUCATION

Bachelor of Science in Game Design and Development (*Expected May 2026*)

Purdue University — West Lafayette, IN

Relevant Coursework:

- CGT215, C++ Programming
- CGT385, Game Production
- CGT365, Game Development Practicum
- CGT340, Digital Lighting & Rendering
- CGT411, Contemporary Problems in Applied Computer Graphics (Capstone)
